

Wells Project Relicensing Phone Conversation Summary

Call to: Carl Merkle

Call From: R.W. Clubb

Date: September 27, 2006

Time: Afternoon

Subject: Request for Policy Outreach Meeting with Umatilla Tribes regarding the Relicensing of the Wells Project

Summary:

Bob Clubb called Carl Merkle (Umatilla Tribes) on September 27, 2006 and left a voice mail with Carl stating that Douglas PUD was interested in meeting with the Umatilla Tribes at their headquarters in order to provide the Umatilla's policy and technical representatives, with an overview of the upcoming relicensing of the Wells Project. The meeting was designed to provide the Umatilla's with an overview of the new ILP process, a schedule for work products and to invite them to participate in the process.

Carl returned my call on or about September 29, 2007 and indicated that he was the right person to contact and that he would mention our proposed meeting to tribal leaders and try to establish a date for the proposed meeting. As of November 2006, Carl had not called back with a date for the meeting.
